

# Advanced Classroom Training Tables

The Kendall Howard Advanced Classroom Training Table Collection balances professionalism and practicality in a truly universal solution. The ACTT system will easily convert an out-dated, uninspiring training room into an engaging, respectable atmosphere by providing a clean, focused learning space that is suitable for any training or work space.

The modular design allows you to customize the layout and usability of your facility, minimizing distractions, and encouraging individuals to stay focused. The ACTT Collection is engineered to be affordable, yet quality driven, giving everyone the opportunity to orchestrate a structured and effective work space. The fully adjustable leg design allows the surface height to be modified to best suit each user. This capability helps to promote a uniform and professional solution throughout facilities which cater to various age groups, such as schools and community centers. The robust table tops are available in five stunning finishes to help transform any educational facility into a warm and inviting learning space that demands success.

Whether it's a high school classroom or a corporate training center, Kendall Howard's Advanced Classroom Training Tables will dramatically improve a user's overall experience, provide instructors with more fruitful results, and advance your educational facility to the next level.
