

Medical Grade Cord Reel

LS 5415 123 3M

New Product Announcement

DESCRIPTION

Designed for medical applications where sanitary conditions are of a major concern, Reelcraft's new LS 5415 123 3M incorporates 304L grade stainless steel and a medical grade cord assembly. Its unique construction also makes this reel well suited for pharmaceutical applications, food processing and much more. Reels include 4-5' pigtail, multi-positional guide arm and cord stop.

BENEFITS

- **Maintenance Free** - Reel easily cleans to a shine, will never corrode and requires almost no maintenance.
- **Quiet** - This reel utilizes a cam latching system, making it much quieter and smoother than other reels in its class.
- **Compact** - The LS 5415 123 3M offers a space saving design, ideal for minimum space requirements.
- **Medical Grade Cord Assembly** - Features a distinct grey SJTO jacketed cord and medical grade endings.
- **Superior Strength** - A robotically welded base, engineered structural supports and high-grade industrial stainless steel combine to give this reel superior strength and stability.
