

# YELLOW JACKET® AMS®

## The “Build to Suit” Cable Protector System

**Yellow Jacket®  
AMS® Meets  
ADA Regulatory  
Requirements**

**YELLOW JACKET**  
CABLE PROTECTORS

Please refer to [www.yjams.com](http://www.yjams.com) or  
call our Sales Department at  
(626) 357-7051 for information  
regarding warranty limitations

MADE IN USA

### Forms a Superfloor™

The Superfloor will stay connected under very demanding usage and greatly reduces any chance of trip hazards

- No gaps between parallel cable connectors
- Ramps are attached using Hipersnap® locking devices
- Hour Glass® connectors hold cable protectors in line and in place
- One side of center section fits flush to a wall saving space and eliminating a potential trip hazard

### Connects with Other Cable Protectors

- Protects your investment in Yellow Jacket Classic and other cable protectors using the dog bone connector
- Is a fully functional, half-length (18") cable protector

The **Yellow Jacket® AMS®** (Advanced Modular System) is the first cable protector system designed to grow with a user's needs. Now a user can “build” a cable protector system on-site to:

- Accommodate additional cable runs
- Add ADA compatible ramps
- Tailor it for restricted floor space
- Interface with a broad range of existing cable protector systems
- Handle almost any traffic from foot traffic to high speed, heavy vehicular traffic

### Expandable ADA Compatible Ramps

- ADA compatible special access ramps provide unmatched stability and expandability
- Several ramps may be combined to form an extra wide ramp for easier access

### Unlimited Number of Cables

- Designed for expansion, simply add more center sections to expand
- Protect an additional 5, 50 or more cables, lines or hoses
- Each additional center section has five channels

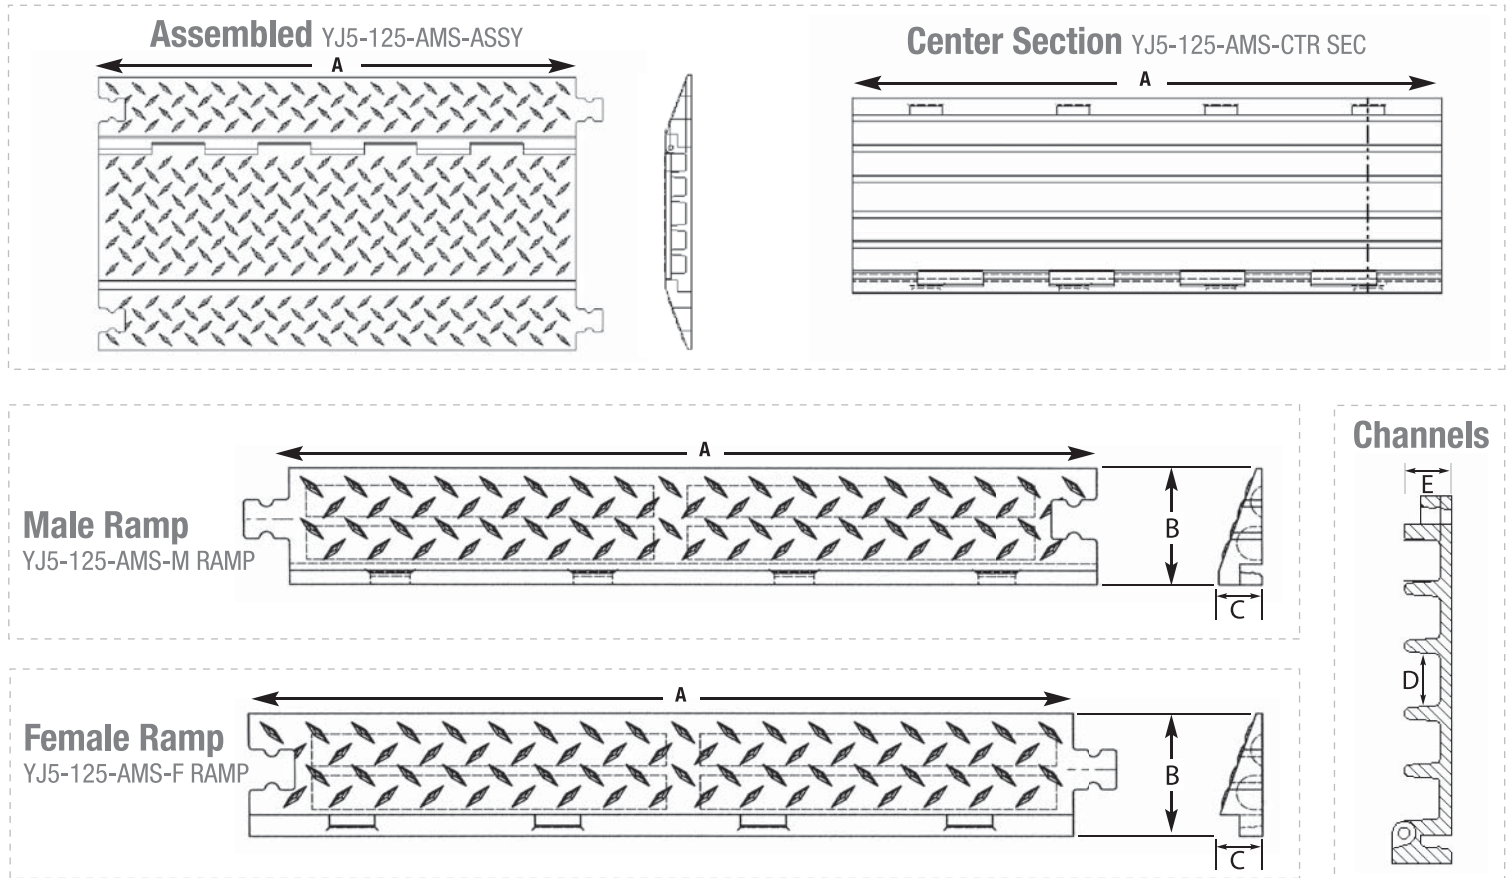

### Built with Yellow Jacket Strength

- Long lasting proprietary Durathane® polyurethane
- Extra strong 2" leading edge with Roman Arch™ construction
- A 3/8" thick lid and a 3/8" thick base
